

"POLICE OFFICER MEFFLEY came into my saloon on January 16th and told me I had to put up \$30 if I did not want to have my bartender, A. del Francia, prosecuted for selling liquor to an Indian. I paid Meffley the \$30, and he said the matter was now settled. I asked him for a receipt, but he refused to give me one. I have the entry of the payment of the money to Meffley in my books. Del Francia was not prosecuted."

MEFFLEY IS ARRESTED ON CHARGE OF BRIBERY

JOE BARRA SWEARS HE PAID HUSH MONEY TO OFFICER

Warrants Are Sworn Out Against
Both by District Attorney,
and Arrests Follow

FRANK T. MEFFLEY, a police officer of the Reno Police Department, is under arrest with a charge of bribery registered against his name.

Joseph Barra, formerly proprietor of the Wieland saloon, is in the custody of Sheriff Ferrel accused of giving a bribe.

The penalty for these crimes, upon conviction, is not less than one year in the State Prison, or not more than eleven years.

THE criminal complaints involving these two men were sworn out last evening by District Attorney William B. Craig and the charges arise out of testimony given in a suit before Judge Currier in the District Court yesterday afternoon.

Barra, when proprietor of the Wieland saloon, corner of Plaza and Sierra streets, in the month of January, 1906, is said to have sold liquor to an Indian—that is, A. del Francia, his bartender, is alleged to have made the sale. On January 16, 1906, Barra charges, Policeman Meffley entered his saloon and interviewed Barra on the subject of the sale, and Meffley, according to Barra's testimony under oath, told Barra that he would have to put up \$30 if he did not want the case prosecuted. Barra says he paid the \$30 to Meffley to prevent the arrest of the bartender, Del Francia. This payment, he swears, was made on the 16th of January, 1906.

Where Trouble Arose

Later Barra and his employee had trouble over a question of wages alleged by Del Francia to be due him and brought action to recover the money. The case was tried in the Justice Court and an appeal taken to the District Court. The case came to trial yesterday morning before Judge Currier.

When testifying under oath Barra made the statement that \$30 of the amount claimed by Del Francia should be deducted from the claim because he (Barra) had paid out that amount of money to Police Officer Meffley to prevent Del Francia from being prosecuted on the charge of selling liquor to an Indian.

Creates a Sensation

This statement created a sensation in court, and all eyes were turned on Barra. Judge Currier looked carefully at the witness and when the statement was clearly repeated at once notified District Attorney Craig to swear to a complaint charging Meffley with receiving a bribe and Barra with giving a bribe.

After a thorough investigation of the charges District Attorney Craig, in company with Sheriff Ferrel, appeared before Judge Bell and swore out warrants for the arrest of both Meffley and Barra.

Armed with the warrants Sheriff Ferrel apprehended Barra and later in the evening Meffley appeared in the Sheriff's office and was placed under arrest.

Barra Reiterates Charges

Barra last night made the following statement to The Journal:

"I gave Policeman Meffley the \$30 in gold in my saloon on or about January 16th of this year. It was paid to him at his request to prevent Del Francia from being prosecuted on a charge of selling liquor to an Indian."

"You are sure about the payment of the money and the date?" he was asked.

"Yes, and I asked Meffley for a receipt for the money, but he replied that he could not give me one, but that it would be all right and that Del Francia would not be prosecuted."

"The date, to be exact, was, I think, between the 15th and 16th, but I can easily tell that when I see my books. I have the amount and date entered there."

Will Put Stop to Grafting in Washoe

DISTRICT ATTORNEY WILLIAM B. CRAIG, speaking of the charges against Meffley and Barra last night, said:

"I will root out the grafters in Washoe county if I have to keep the Grand Jury in session continuously to do so. This case will be prosecuted with vigor and if Meffley is guilty as charged he will be justly punished. Grafting in Washoe county must stop."

Barra does not seem to realize the serious position in which he has placed himself and is quite willing to testify. He is subject to the prosecution as Meffley and similar punishment on conviction.

Previously Accused

This is not the first time that Police Officer Meffley has been accused of a somewhat similar offense in connection with an alleged bribe having been taken from two Chinamen. The amount was \$40, but the case was finally disposed of, and Meffley was not prosecuted on this charge.

Denies Taking Bribe

Officer Meffley on his way to the County Jail made the following statement:

"I am entirely innocent of the charge placed against me. I knew absolutely nothing about the matter until the warrant was served on me. As a matter of fact, I had nothing to do with the arrest of the Indian who was given the booze at the saloon. Constable Cunningham made the arrest, and the first intimation I had of the matter was when I was served with the warrant."

Del Francia sprang into print some time ago through charges preferred by his daughter against a Spaniard, Matthew Alvio, for alleged assault, but before the charges were brought to trial the accused man died.

Released on Bail

Both Meffley and Barra were released on bail last night, the bonds being placed at \$5,000 each. The preliminary hearing of the charges will be this afternoon at 2 o'clock.

Grafting Must Cease

District Attorney William B. Craig, speaking of the charges against Meffley and Barra last night, said:

"I will root out the grafters in Washoe county if I have to keep the Grand Jury in session continuously to do so. This case will be prosecuted with vigor and if Meffley is guilty as charged he will be justly punished. Grafting in Washoe county must stop."

The complaints as sworn to by District Attorney Craig are as follows:

Meffley is charged

In the Justice's Court of Reno Township, in and for the County of Washoe, State of Nevada.

Criminal Complaint—The State of Nevada, plaintiff, against Frank T. Meffley, defendant.

Personally appeared before me this day, Wm. B. Craig, of Reno, in the County of Washoe, who, first being duly sworn, complains and says, on information and belief, that one Joseph Barra, of Reno, on or about the 16th day of January, A. D., 1906, at Reno, in the County of Washoe, State of Nevada, committed the crime of felony, to wit: Bribery, committed as follows, to wit:

That at the time and place aforesaid, the said Frank T. Meffley, then and there being a police officer of the City of Reno, in said county and state, duly qualified and acting as such, did receive the sum of Thirty Dollars (\$30.00), lawful money of the United States of America, from one Joseph Barra, by way of a bribe; and that at said time and place the said defendant, Frank T. Meffley, in consideration of the said sum of Thirty Dollars

(\$30.00), lawful money of the United States of America, being paid to him by the said Joseph Barra as a bribe, did promise and undertake to withhold information from the proper authorities of the fact that he, the said Joseph Barra, had committed a felony, to wit: Selling liquor to an Indian, and to refrain from arresting him, the said Joseph Barra, for the commission of said felony, as required by the laws of the State of Nevada.

All of which is contrary to the form of the statute in such cases made and provided against the peace and dignity of the State of Nevada.

Said Complainant therefore prays that a warrant may be issued for the arrest of the said Joseph Barra, and that he may be dealt with according to law.

Subscribed and sworn to before me this 23rd day of May, 1906.

FRANK BELL,
Justice of the Peace of said Township.

A RENO PIONEER IS STRICKEN WITH PARALYSIS

F. C. Uptake, One of the Early Settlers of This State and Old-Time Old Fellow, Is Taken Seriously Ill at the Wheelmen's Club

F. C. UPTAKE, while sitting in his arm chair last night at the Wheelmen's Club, suddenly fell forward stricken with apoplexy, or paralysis. Dr. Walker was summoned and the sick man removed to the porch pending the arrival of the physician.

When Dr. Walker arrived the unconscious man was gasping for breath and after a hurried examination the physician shook his head ominously. The sick man was taken to his home on Vine street.

F. C. Uptake is one of the pioneers of Nevada. He has lived in Reno for about thirty years and has always been one of the most respected of her citizens. He has served the people in the capacity of coroner and was defeated for re-election by Joe Peers, who won by the slender margin of one vote. It was an interesting feature of the election that the son of the sick man did not come to town that day and the loss of that one vote prevented a tie. Uptake by trade is a painter and decorator. For several years he has been secretary of the Wheelmen's Club, and it was while waiting for the board of governors of that institution to meet that he was taken sick.

Seated in his arm chair at the club he was idly playing with a pencil in his hands. The pencil dropped to the floor and he was seen to reach over the side of the chair to get it again. But he did not resume his position and could only nod his head when asked if he were ill. His son was summoned and arrived when the doctor did.

Three sons and the devoted wife are watching at the bedside of the sick man. F. Lee, a conductor on the Southern Pacific has been for years a member of the grievance committee of the O. R. C. D. H. Uptake, another son, is a student at the University of Nevada, and another son, A. B. Uptake, is a prominent mining man of this State.

FIGHT A PISTOL DUEL IN STREET TO DEATH

ANADARKO, Okla., May 23.—At 1 o'clock this morning a fierce pistol duel took place on Main street between Deputy Sheriff Jim Bourland and the notorious outlaw, Fred Hudson.

Bourland received a wound in the abdomen, the ball passing through the body. Hudson was shot twice in the legs, one being broken, necessitating its being amputated. The feud between these men is one of old standing. It was intensified yesterday when Bourland took a revolver away from Hudson. T. J. Kennedy, a saloon man of this city, and J. E. Byron are now under arrest. Hudson is in a very critical condition.

STEAMER ENGAGED BLAST IN NORCROSS MINE KILLS ONE MAN

IN ICE; CREW ALL DEAD

MISSING RUSSIAN BLOCKADE RUNNER IS DISCOVERED IN ARCTIC REGIONS FROZEN IN WITH CORPSES OF PART OF HER CREW LYING ABOUT THE DECK

VICTORIA, B. C., May 23.—The steamer Tencer, the new liner of the Blue Funnel line from Yokohama this morning, brought news of the discovery of the missing blockade runner Socrabaya, completely encased in ice on the north Siberian coast near Nicolavsky, with the corpses of part of her crew frozen on board. Some were missing.

The steamer was in the employ of the Russian government, taking a cargo of arms and ammunition to Vladivostok and was unable to reach the port because of the Japanese blockade. She took refuge in the Arctic off North Siberia, where she was frozen in the ice.

Nothing was known of her after she went into the Arctic until she was found with her frozen crew. The steamer Tencer was sent to search for her last November but failed to find her. The ship was discovered by Siberian natives. It is believed that if the vessel is not crushed by the breakup of the ice she may be saved.

DOUBLE MURDER IS FOLLOWED BY LYNCHING

THAT KILLS TWO SISTERS AND ROBS HOME OF SEVEN HUNDRED DOLLARS, AND UPON DISCOVERY OF CRIME GUILTY MAN IS SHOT TO DEATH

OKLAHOMA CITY, Okla., May 23.—It was learned here today that a double murder to cover a robbery, followed by a lynching, has occurred in the wilds of the mountains in the Chickasha nation. The affair occurred two weeks ago. The participants in the tragedy were mountaineers who agreed among themselves to keep the affair secret.

Two weeks ago an unknown man went to the home of R. T. Tull, who lives near the base of the mountains, and demanded food. He was refused by Mrs. Tull, who found it necessary to enforce her refusal by the display of a gun. A few days later a nearby farmhouse, which was occupied by two maiden women was broken into, the sisters were shot dead in an endeavor to protect themselves and were robbed of \$700 in cash. Neighbors discovered the deed and a posse was organized. The murderer was trailed to the woods and upon his discovery was shot down in cold blood. Upon the return of the boys from the woods the only remarks in response to inquiries were, "Well, they guessed he would not rob nor murder anybody else."

LYNCHED BY MOB

COLUMBUS, O., May 23.—George H. Younger, a negro who shot and killed a well known citizen and Senator on last Sunday while the latter, as a member of a posse, was endeavoring to effect the negro's arrest, was taken from the jail at this place last night by a mob and lynched.

CAMPAIGN ISSUES ARE GIVEN AN AIRING IN HOUSE

Landis Attempts to Reply to Democratic Criticism and Is Handed More Facts

MINORITY LEADER ON TARIFF REFORM MOVE Believes Worst Thing About Protection Is That It Corrupts Good Government

WASHINGTON, May 23.—The issues destined to be uppermost between the two great parties during the coming campaign are already being joined, if the speeches now being made in the House of Representatives are a safe index.

Several weeks ago Rainey of Illinois made a carefully prepared speech on the watch trust, asserting that the watch manufacturers of the United States had one price for watches at home and a lesser price abroad.

Today in the House Charles B. Landis of Indiana in a sense answered Rainey, frankly admitting that American manufacturers had one price at home and another abroad and he defended the practice as in accord with good business methods, insisting that all countries sold their wares for less price abroad than at home.

Replies to Cockran

Landis also paid some attention to a speech made by Bourke Cockran, wherein the latter denounced the policy of protection as one of public plunder, the fountain source of all corruption and the cause of total demoralization of the American republic. This Landis denied. He said that every poor but ambitious emigrant who landed here during the last ten years would refute the allegation. Referring to Cockran's speech, he said:

"This is the best country on earth and not the worst country on earth. And if I thought about it as the gentleman from New York I would resign my seat in this House, sell out my belongings and move to some other country nearer in harmony with my political notions."

Williams Makes Reply

Landis displayed a number of pictures of Coxey's army and commented on its appearance in Washington and the demand of its members for work.

"That was the condition during the last years of Democratic rule," said Landis.

In reply to this, Williams, the minority leader, stated that he had walked through Coxey's army while it was encamped on the grass in front of the Senate entrance to the capital, and at that time the Wilson-Gorman bill was under discussion in the Senate. He insisted that the Government was still operating under the McKinley bill at that time, and that revenues were being collected under that Republican measure.

Tariff Reform

Williams said he was encouraged in the fight the Democrats were making in favor of tariff reform, because of the number of Republican leaders who were wishing for relief from the protective tariff. He said the sledge hammer debater, Hepburn of Iowa, the chaste and brilliant Boutelle, and even the humorist of the Republican side, Cushman of Washington, had been all commended to support the protective theory, and he inferred from this that the attacks were having effect.

Corrupting Influence

It was Williams' belief that the worst thing about the protective tariff was that it corrupts the friends of good government. He said the Republicans would come into the Democratic party and say to the friends of free trade, "We will protect you against hell," and so the Democrats yielded and even he had been directly approached along similar lines, but he had been thus far able to say, "Get thee behind me, Satan."

HACKETT CARHART

"Uncommon Clothes"

THE PREFERRED GARB OF THE FAULTLESS DRESSER

There is a distinctive air of dressiness about the man who wears Hackett Carhart Clothes. There's character and individuality of style to the garments that is unmistakable. Wherever this line of high grade clothing is known it is preferred to all other lines.

This is the first year that Hackett Carhart Clothes have been shown in Reno, but already the majority of Reno's best dressers have recognized its superior merits and are wearing the garments. Their popularity is attested by the remarkable clothing business we have enjoyed this Spring—a business almost double that of any previous year.

If you are not an admirer of the Hackett Carhart Clothes, we know it is due to ignorance of the superior merits of the garments rather than to any fault of the clothes themselves. If you will but drop in when in need of a new Spring or Summer Suit, we are perfectly confident that you will at once recognize the superiority of this line of clothes.

Men's Furnishings

The Newest Spring and Summer Styles

NEW SHIRTS

GILE SHIRTS—Dressy, soft fronted shirts, so comfortable for Summer wear. Our assortment of them are the pride of our Furnishing Department. All the newest styles, the most fashionable materials and the handsomest patterns and colorings are here. Prices \$1, \$1.25 and \$1.50

NEGLIGEE SHIRTS—What's cooler than a sheer pongee or Jap silk negligee shirt on a warm day? How delightfully comfortable the soft collar feels. We have a splendid assortment of the new patterns and colorings to show you. Prices from \$1.50 to \$3.50

FANCY NECKWEAR—Rich, lustrous silks in the prevailing four-in-hand styles. Prettier shades and patterns than we've seen in many a day. The wide widths are still the favorites although the narrower ones will be worn a great deal with the Outing Suits. We have a large assortment of both at 25c and 50c

FANCY HOSIERY—Fine Lisle Half Hose in lace, hand embroidered and fancy effects in plain black or in neat modestly toned shades. They are decidedly smart when worn with low shoes. Some particularly fine values at 50c

PANAMA HATS

Don't think of buying a Panama elsewhere before seeing our assortment. We received them direct from New York only last week. They are blocked in the newest Eastern styles and the prices are as low as the styles are now. \$5.95 will buy a beauty, \$8.50 will get you one worth \$10, and our \$10 ones couldn't be duplicated elsewhere for less than \$15.00

The "Virginia"

\$3.50 Shoe for Ladies

The "Virginia" low cut shoes have taken Reno by storm. No other popular priced shoes is half so popular. No wonder when there is as much style and beauty of outline, as much comfort and satisfactory wear crowded into the "Virginia" at \$3.50 as there is in most other lines at \$5.00. The new Spring and Summer styles for 1906 are especially popular with lovers of smart footwear. And there is such a variety of shapes and leathers that the most exacting woman can be exactly suited. Give them a trial, or ask your neighbor about them nearly all women know their excellence.

Mount Rose Observatory Would Indicate in Advance Weather Conditions to Prevail in Western Part of the State

Professor J. E. Church and Mr. Alexander, chemist of the Barber Asphalt Company, returned from Mount Rose Saturday night with one of the most valuable records of pressure and temperature obtained from the mountain this year. According to the record of the thermograph, the cold snap which struck the orchards and berry crops last Wednesday and Thursday nights reached the mountain top on Monday noon, registering 12 degrees F. above zero, thirty-six hours before the first appearance of frost Tuesday night on the valley floor, sufficient time to have given all fruitmen an opportunity to make preparations for smudging and covering their berries if an observer had been stationed at the summit to give the warning. The continued falling of the thermometer on the summit on Tuesday and Wednesday to 7 degrees above zero and the falling of the barometer accompanying it, would have been sufficient warrant to predict the destructive cold of the nights succeeding.

In fact with the present facilities of telegraph and telephone, the incipient frost of Tuesday which became so destructive in the eastern part of the state, could, if necessary, have been announced there at least twenty-four hours ahead of its arrival.

Professor McArdie during his recent visit to Reno, suggested among other things the advantage Mount Rose would be as a frost-sentinel to the ranchers of the Truckee Meadows, and Carson Sink, when the Reclamation service had made that land one of the garden spots of the state.

Professor McArdie before his departure also decided to recommend Mount Rose as a site for a permanent mountain weather observatory when the government should develop this branch of the weather service. This selection was made partly on account of the advantageous situation of Mount Rose, but largely on account of the accessibility of its summit throughout the winter.

The weather bureau also has taken a keen interest in the experiment now being conducted on the mountain, and is now publishing an illustrated article in the April number of the U. S. Monthly Weather Review on the Mount Rose weather observatory, to stimulate other communities to attempt similar work.

Since the government moves slowly, says Prof. Church, in making innovations and will naturally provide observatories for Mount Washington and Pike's Peak, as has already been recommended by Chief Moore of the Weather Bureau, before making any provision for peaks further west, the opportunity is presented to some public spirited citizen of Nevada to endow a project which will be not only of great scientific value but of practical advantage to his state.

PEACE IS RESTORED ON WESTERN TURF

CINCINNATI, O., May 23.—Peace has been practically restored on the Western turf, according to a story published here today. Congressman Joseph L. Rhinock, representing the American Turf Association, and Louis Cella, the main supporter of the Western Jockey Club, signed a compact which ends the fight. With C. A. Tillis, Harvey Myers and Judge Bond of St. Louis as witnesses, Rhinock and Cella signed the peace compact last Saturday.

This means that there will be no clash between Louisville and Douglas Park and between City Park and the Crescent City Jockey Club in New Orleans next winter. The dates will be so arranged that both tracks will race alternately. The outlaw rule, is also wiped out and horsemen can race at either track. Latonia's meeting will be run independently of the American and Western Jockey Clubs. No one will be barred except those who have been suspended or ruled off by either organization. It will not be long before a new organization will be formed to control racing in the West.

The American Turf Association came into existence through the refusal of the Western Jockey Club to grant City Park racing dates. Corrigan and Congressman Rhinock were behind City Park and the American Turf Association was organized to fight the Western Jockey Club. It has been a long fight and in consequence racing in Illinois and Missouri has been discontinued.

ARRANGING FOR BIG PICNIC AT BOWERS

On Sunday, May 27th, a special will be run to the newly opened Bowers Mansion under the auspices of the C. G. S.

There will be races, swimming and all sorts of pastimes. A band will be in attendance and will play for the dances. Bicycle races will be run, and, in short, a good time for all will be arranged.

The train will leave Reno at 9 o'clock in the morning and will return late in the afternoon.

Interesting Correspondence From Secretary of the Promotion Club at Bishop Tells of the Rich Mining Country

BISHOP, Inyo Co., Cal., May 21, 1906.
To the Editor The Nevada State Journal.

Dear Sir:—If you look on the map of California-Nevada, you will see that Inyo county, California, logically belongs to Nevada and is an extension or continuance of the recent discovered gold areas of that state. The line dividing this rich district gives a share to California.

Inyo is, geologically, Nevada, having the same formation and character in its mineralization and gold-carrying quality. Nevertheless, on the Nevada side of this geological division are great mining camps and towns, crowds of miners, investors and speculators, building and making history, while just across the imaginary line, where the country is called California, exists the very reverse. Does the name and pertinency change condition?

Why then this difference? Simply the maze name of Nevada? California's side is just as rich, if not richer, but the newspapers with few exceptions, are not booming it. It has no mass agents. Its merits are not heralded from mountain tops and valleys. It is said there is "nothing doing" here. Yet the few who have struggled across into the California part have found an apparently unknown Eldorado far surpassing the wildest stories of the fabulous country they left behind.

Our state mineralogist, in a personal letter recently received, says: "It is gratifying to notice that mining men are beginning to appreciate the great advantages and opportunities of Inyo county." I am glad, indeed, if this be so, but up to now there is but little to indicate any great invasion. Considering what this district offers, it is surprising that it is not crowded to the limit with prospectors and attendant investors. There is ample to warrant their presence. No better showing anywhere in the world. The hills and canyons are full of gold-bearing ledges, inviting examination, with but few earnest workers to test their values, and these few are so quickly satisfied that there remains no incentive to further seeking. We want more—there will be no disappointment—let them come to us, direct, and we will take pleasure in pointing out the most promising localities, where gold can be found on the surface, and where, with pick and shovel, may be uncovered a fortune.

Yours very truly,
M. T. STOVELL,
Sec. Inyo Club of Bishop, Cal.

Dr. T. P. McDonald, from San Francisco, and Formerly of, Virginia City, Purchases the Westerfield Property on Mill Street

Senator W. J. Westerfield sold his house on Mill street, next to the Carnegie library yesterday to Dr. T. P. McDonald, late of San Francisco. The purchase price was \$16,500 and was paid by the new owner.

The circumstances attending the purchase of the property are interesting, as showing the impression created by Reno on a transient visitor.

Dr. McDonald was formerly a prominent resident of Virginia City. He later went to San Francisco, where he opened an office and built up a good practice. He was burned out in the recent fire and after the insurance matters had been adjusted the doctor started for his old home in Virginia City. He stopped over for a day in Reno and saw the fine house and grounds on Mill street and was struck by the advantages of this city and its possibilities.

He will make his home here. Dr. McDonald is a brother-in-law of Senator A. J. McCone, who was formerly interested in the Reno Engineering Company. Miss Dolly McCone was a belle of Virginia City, and the pair were married at that place several years ago.

Alexander Aguayo Returns from San Jose and Announces the Fact That He Had Been Married Last Wednesday to Miss Sytan

Alexander Aguayo returned yesterday from San Jose and surprised his friends by the announcement that he had been married in that city to Miss Isabelle Sytan. The wedding took place on Wednesday, May 16th, and was a very quiet affair. Only immediate friends were present.

Rev. J. Wilmer Gresham of the Trinity Episcopal Church performed the services, which on account of the fact that the St. Matthew's Church in San Mateo was destroyed by the earthquake, were held in San Jose.

The bride is a charming young lady, well known in San Jose and other Central California towns. The bridegroom has a host of friends in this city, and is at present one of the Louvre staff.

He was busy yesterday receiving the congratulations of his many friends. The couple will make Reno their home.

Both Men Are Confident of Winning Wrestling Bout

U. Kawa and George Braun who meet tonight at the Grand Theater to wrestle for championship honors

TONIGHT the big wrestling bout is pulled off at the Grand theater in conjunction with the excellent bill of regular evenings.

Both Braun and Kawa are confident of winning. This fact is certain. Manager J. Tochio for Kawa, the brown wrestler, stated last night that he had every confidence in the world in his man's chances. If Kawa loses, he said, "I will be the greatest surprised man in the world. I do not see how he can lose."

Manager Miller for George Braun was no less confident. "This is not a new game," said Miller for my man. "He is trained to the minute and has never been in better condition. The bout will not last long, and the referee will put his hand on my man's shoulder as the winner. Braun can't lose."

So there you are and as a difference of opinion is said to be responsible for horse races it is likely that a large contingent from local sportsmen will be on hand to witness the bout which is of international importance.

RENO AND SPARKS TO MEET ON DIAMOND

From appearances there should be a great game of baseball next Sunday afternoon at the State Park grounds when the Sparks nine cross bats with the Reno aggregation. There is a bet of \$100 a side on the contest and the victorious team takes the entire gate receipts as well. Local fans declare that the two teams are very evenly matched and eye look for a close score.

The match was arranged by a day when S. H. Brown, captain and manager of the Sparks aggregation, and Manager Foley of the local team met at the Palace and put up the money with Jim May.

Scientia Cured After Twenty Years of Torture

For more than twenty years Mr. J. B. Massey of 3322 Clinton street Minneapolis, Minn., was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniment relieved the pain and made sleep and rest possible and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism, why not try a 25-cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists.

Stomach Troubles

Miss Sue Martin an old and highly respected resident of Fausonia, Miss was sick with stomach trouble for more than six months. Chamberlain's Stomach and Liver Tablets cured her. THIS CARRIED IT HOME

(Honolulu Evening Bulletin)

It is a curious but satisfactory fact that chronic Bright's Disease which according to medical authorities is an incurable and fatal disease is now actually being cured. We have not attached importance to the statements of recoveries we have seen in the papers from the States, but that they are not all rumors is now evident from several recoveries here.

A. H. Otis of the Honolulu Drug Co. tells us of two interesting cases. One was swollen with dropsy due to advanced Bright's disease and the patient and his physician had given up hope. Otis kept urging a trial of the new specific until the patient finally consented. Recovery was complete, the patient leaving a few months later for California where he now resides.

Another case was that of an officer on one of the Island steamers. He was in a hospital and considered hopeless when put on the treatment. He has now been back at his post for some time.

The specific that was employed is called Fulton's Compound for Bright's Disease. It seems to be a genuine discovery. Otis says there are very few failures, but that it requires patience. Honolulu Bulletin.

We are agents for this Compound. J. B. McCullough, agent Reno Sparks Drug Co. agents Sparks. When to suspect Bright's Disease—weakness or loss of weight, dropsy, puffy ankles, hands, or eyelids, kidney trouble after the third month urine may show sediment, failing vision, drowsiness. If you have any of these, send for free booklet.

LEGAL ADVERTISEMENTS

LEGAL NOTICE

In the District Court of the United States for the District of Nevada. In the matter of the Nevada Mercantile Company, a corporation, Bankrupt. To the Honorable THOMAS P. HAWLEY, Judge of the District Court of the United States, for the District of Nevada: The Nevada Mercantile Company, a corporation of Sparks, in the County of Washoe, State of Nevada, in said district, respectfully represents that on the 1st day of July, last year, it was duly adjudged bankrupt under the acts of Congress, relating to bankruptcy. That said corporation has duly surrendered all of its property and has fully complied with all of the requirements of said acts and of the orders of the court touching its bankruptcy. Wherefore, said corporation prays that it may be decreed by the court to have a full discharge from all debts provable against it, under said bankruptcy acts, except such debts as are excepted by law from such discharge. Dated this 28th day of April, A. D. 1906.

THE NEVADA MERCANTILE CO., a Corporation. By E. A. WILLIAMS, General Manager. United States of America, District of Nevada. J. E. A. Williams, the general manager, and one of the members and stockholders of the Nevada Mercantile Company, a corporation, I do hereby make the following affidavit, on and for behalf of said corporation, described in the foregoing petition, that the statements contained therein are true according to the best of my knowledge, information and belief. E. A. WILLIAMS, Petitioner. Subscribed and sworn to before me this 28th day of April, A. D. 1906. W. D. JONES, Notary Public.

Order of Notice Thereon

STOCKS SLUGGISH PRICES DECLINE STEADILY

Market Generally Dull and Revelations of Graft in Railway Circles Cause Uneasiness in These Holdings—Hopeful Feeling as to Banks

NEW YORK, May 23.—There was a decided increase in the amount of business done at the Stock Exchange today, but selling orders made up a large proportion of the expansion in activity and prices suffered accordingly. The decline in prices seemed the result in a large part of the suspense involved for speculative holders of stocks in a prolonged period of dullness and sluggishness.

Today's selling was supposed to be by the "tired holders." Of this class who have become discouraged over the prospect of an early revival of speculative activity. News of the day was not regarded as adverse to values and some items were favorably interpreted. The progress of the investigation into the coal carriers was not one of these. The resumption of the inquiry today has been responsible for a feeling of despondency on the part of the speculators. The graft disclosures reaching into the railway world are dreaded for their effect on public sentiment just as were the life insurance exposures with just cause in the latter case as was proved by the event. Pennsylvania stock itself showed some resistance to the general depression in the market in contrast with its recent persistent weakness, even while other stocks were strong. This was attributed partly to the practical confirmation of rumors current for several days of a fresh bond flotation by the company in Paris, estimates of the amount reaching as high as \$50,000,000.

Hopeful sentiment prevailed as to banking operations in San Francisco. Bonds were easy. Total sales, par value, \$1,795,000. United States bonds were unchanged on call.

MANHATTAN MINES ARE ACTIVELY PRODUCING

A strike of very large proportion was made a few days ago on the Virgin Mary Fraction of the Manhattan Consolidated Extension Mining Co., adjoining the Manhattan Consolidated. At a depth of sixty feet, a 12-foot vein of ore was encountered, fairly teeming with free gold. The nature of the ore is a schist with stringers of quartz running through it. The peculiarity of the strike is that the free gold can be found in large quantity in the schist. Some of the finest specimens ever seen in Manhattan were brought in from this property. Selected samples assay into the thousands of dollars per ton, while the whole twelve feet will average \$75.

Work in the shaft of the Manhattan Consolidated was stopped a few days ago on account of water. At a depth of seventy-five feet a large flow of water was encountered, and work cannot be resumed until the pumps which have just arrived, are put in place. This is a great feather for the Consolidated, as now water is assured for the large mill which the company is contemplating building in the near future. Two hoists are in the course of construction on the Consolidated which is a true indication of ore bodies of sufficient size and value to warrant extensive operations.

Quite a stir was occasioned last Wednesday by a panning from a sample found in the tunnel of the Manhattan Mother Lode Mining Company. T. E. Kahn, while prospecting the hill on the Mother Lode property, found a piece of very good looking float directly above the tunnel. He thereupon entered the tunnel to a point below the find, and upon prospecting the sides, found a talc streak cutting through the tunnel, and took several samples therefrom. He came out into the light and noticed several particles of free gold on his sample. He brought it to town, and upon panning it, found one of the largest panings ever seen in this district. Mr. Train, a local assayer, estimated the value at \$20,000 per ton. The sample was about the size of a hen's egg. The management is at present tracing the source of this rich find.

Drifting was begun Friday last from the 75 foot level of the Manhattan Cowboy and almost immediately a three foot vein of fine looking quartz carrying heavy iron sulphides, was encountered. This vein was found in the shaft, but only in small quantity. It has opened up strong in the drift and returns values of a little over \$18. Mining men are strong in their belief that the Cowboy is a permanent mining proposition, and feel confident that a rich shoot will soon be found which will place the Cowboy in the ranks of the steady producers.

The dry washer which is at work on Lease No. 3 of the Cowboy is giving excellent satisfaction. This is a novel process. The dirt is thrown on a screen at the top of the machine, sifted below onto a shaker, then deposited on riffle boards. A bellows is constantly sending a current of air across these riffle boards. This blows off the sand, and the gold being heavier is deposited at the bottom of the board and is caught by the riffles. Considerable iron is caught in this way, and therefore is separated by quicksilver after being taken from the riffle board.

On the Raycraft lease on the Little Gray, a 12 foot vein of high grade milling ore has been encountered. Selected samples pan very high in free gold, and the entire ledge will average about \$49 per ton. The ore is a very good quality of free milling ore.

The hoist on the Mustang claim has been erected on the company's property, and is about ready for service. It occupies a very prominent place on the hill, and can be seen from quite a distance. The company is being taken from the company shaft on this property.

The drift from the company shaft on the Gregory group of the claims, of the Manhattan Nevada Gold Mines is now in 41 feet, and the entire face of the drift is in ore of a high milling grade. The large black quartz ledge has not yet been encountered on account of the dip of that ledge, but very high values are expected at the juncture of these two veins. It is

expected that the next five feet will bring the drift at the point desired.

A contract for a fifty foot shaft on the property of the Manhattan Express Mining Company was closed yesterday, and the men will begin active work today. The shaft will be sunk on a good looking quartz ledge, and the property developed in a thoroughly miner-like fashion. From the showings already uncovered, it is quite evident that a good body of high grade ore will be developed at depth.

The Manhattan George Extension Mining Company has been incorporated, and L. W. Spear of No. 171 Broadway, New York city, one of the most successful of New York's mining stock brokers, will have the exclusive handling of this property. The company's holdings, adjoining the famous George group at Central, and have an extension of the same big ledge which crosses that wonderful property. Active development work will at once be started on the Oregon Fraction and the ore bodies opened up in a satisfactory manner.

The tunnel on the Consolidated Manhattan property at East Manhattan is now in the hill 52 feet, and is all in ore of a milling grade. A large force of men are at work driving the tunnel with all speed, to develop the large 300 foot ledge on the property. Already they have tapped four veins which cut through this ledge, all of which contain very good values. The vein at the face of the tunnel is the best looking one yet encountered, and pans very good in free gold. This is destined to make one of the big mines of this country.

Work on the Buffalo is progressing rapidly, and from the character of the ore now being extracted, a paying mine is assured. This property, the Consolidated Manhattan and the Manhattan Mammoth, are all developing on the same big ledge, and many mining men of this section are of the opinion that some of the largest mines will be in this vicinity.

GRAIN MARKET IS WEAK; TRADING ACTIVE

Forecast of Wet Weather Causes Free Selling and Prices Gradually Decline, Closing Weak for the Day—Provisions are Slightly Easier

CHICAGO, May 23.—Sentiment in the wheat pit today was bearish from the opening to the close. The main factor in the situation was wet weather in the southwest. According to the weather bureau rain had fallen during the night throughout Kansas, Nebraska and other portions of the winter wheat belt, breaking the drought in that section of the country. The weakness was increased by a forecast of still more rain tonight. A sharp break in the price of the May delivery following the decline of yesterday also weakened prices in general. There was free selling by local longs all day and the market received its main support from shorts who covered freely as prices declined. The close was weak. July opened 1/2 @ 1/2 to 1/2 @ 1/2 lower at 82 1/2 c to 82 1/2 c, sold off to 81 1/2 c and closed one cent lower at 81 1/2 @ 82 c.

Liquidation by local bulls caused weakness in the corn market. The selling was induced principally by the wet weather which was generally over the corn belt and the break in wheat also weakened values. Increased receipts at primary points was another bearish influence. The market closed weak and near the lowest point of the day. July closed 1/2 c off at 47 1/2 c.

Trading in oats was active and the tone of the market weak. July closed 1/2 @ 1/2 c off at 33 c. Provisions were slightly easier early in the day because of moderate selling by pit traders who were influenced by a 5c decline in the price of live hogs. Later the market became firmer on buying by a local packer. At the close, July pork was up 2 1/2 c; lard was a shade higher and ribs were 2 1/2 c higher.

OLINGHOUSE NOW HAS ASSAY OFFICE

As the season opens mining activity increases in the Olinghouse district. Edward L. Haff, the well-known mining engineer, has formed a partnership with H. G. Green and this week the new firm opened an up-to-date assay office in the camp. The demands of the prospectors and others engaged in working mining properties in the northeastern end of the county required an assay office. This is evidenced by the amount of work the new firm is doing already. Modernly equipped offices have also been opened in the Cheney building in this city by the new firm.

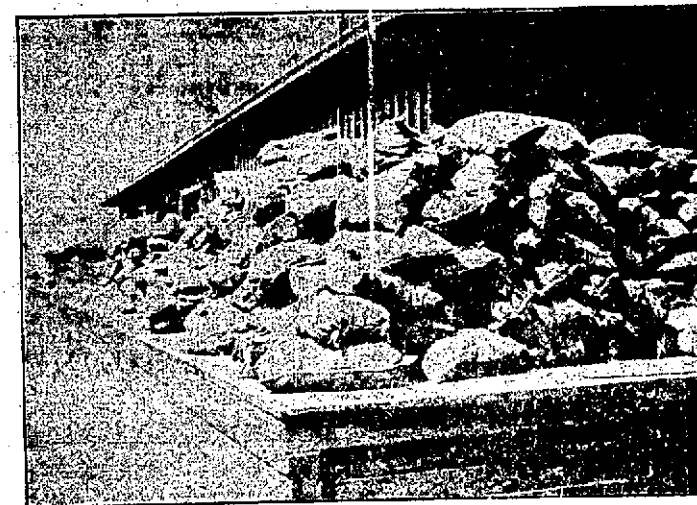

Messrs. Haff and Green are well known, not only in Reno, but throughout the Olinghouse and Whitehorse districts. Their knowledge of the conditions there will be a valuable aid to them in their work.
